Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the Restriction Requirement dated April 6, 2000 Applicant hereby elects, without traverse, to prosecute the invention of Group I as identified by the Examiner including Claims 1-16 and 48-58 drawn to a method. Applicant further elects to prosecute the combinative species from the groups of options as identified by the Examiner:

- a: forming a Bose-Einstein condensate by providing a multiplicity of bosons;
- j: a beam for applying a compressive force as a high energy laser beam;
- Ib: means for using the reaction product stream for running a power generator.

That is, Applicant elects to prosecute the method claims that involve a multiplicity of bosons processed using a high energy laser beam to run a power generator.

Applicant submits that the following claims are readable on the above-identified species:

1-4, 11-12, 14-16, 48-55 and 57. Accordingly, Applicant hereby cancels from the present application without prejudice claims 5-10, 13, 17-47, 56 and 58.

Respectfully submitted,

HOLME ROBERTS & OWEN LLP
